PRODUCT RANGE

ENVIRONMENTALLY FOCUSED & ECOLOGICALLY RESPONSIBLE

Protecting resources is part of our identity and our daily work.

BUERGO.FOL applies the principle of 'Design for Recycling'

- High film quality for optimal recyclability – compliant with ZSVR requirements.
- Mono-material films based on PP, PE or mono APET.
- Production of films with recycled content.
- Recyclable films for thermoforming, tray sealing and flowpack applications.

Certifications

DIN EN ISO 50001

DIN EN ISO 9001:2015

BRC (All sites)

PRS Green Label

Energy management

Through the consistent implementation of our energy management system, as well as the operation of our in-house recycling process and the reintegration of production scrap into our material cycle, **we are able to save several thousand tons of CO₂ per year.**

The realisation of SUSTAINABILITY at Buergofol!

*Optional with
brand protection!*

*Printable in up to 10 colors
in a single pass!*

Top films

MONO FILMS

MONO PP | MONO PE

*The
future
is
here!*

Thermoforming films

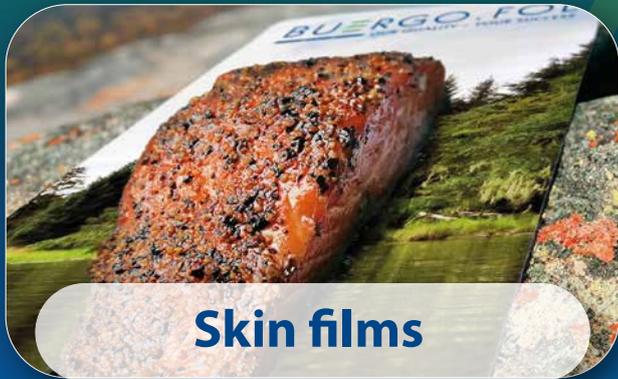

*Optimized for
efficient thermoforming and
reliable product protection*

Flowpack

*Highest
machine speeds and
reliable sealing performance*

Mono APET

*Sustainable packaging
and powerful protection*

Skin films

Excellent packaging performance

Trays + Blister

Cost-efficient solutions - even for small batches with low tooling costs

Foamed APET

Awarded the Sustainability Award

Special films

Customized customer solutions

Laminate films

Laminating films with or without high-barrier properties

Stand-up pouches

Barrier and high-barrier

Standard product range

**Shrink bags
meat + cheese**
